

DESIGN YOUR DIFFUSER

INTERACTIVE STATION

Our interactive station is great for reception style events and smaller break-out sessions. For this experience, our fragrance specialist will guide guests to choose from a curated selection of top, middle, and base notes to create their own unique fragrance. Our team will then assist in the blending process and at the end of the event each participant will leave with a custom reed diffuser they helped design themselves.

WORKSHOP

This one-of-a-kind experience takes guests on a journey through the history of scent. Led by our fragrance specialist, guests will smell 9 fragrant materials while learning about the art of perfume composition and the blending of fragrances. Then, guests will have the opportunity to help curate and create their own custom fragrance, mixed by our staff of experts. In the end, each guest will leave not only with their own custom creation, but also with a new appreciation for the magic of scent.
