DESIGN YOUR DIFFUSER INTERACTIVE STATION

Our walk-up Interactive Station is great for reception style events from breakfasts to cocktail hour. It is the perfect addition to any event as an activity and gifting opportunity. For this experience, our fragrance specialists will guide guests to choose from a curated selection of top, middle, and base notes to create their own unique fragrance. Our team will then assist in the blending process, and at the end of the event, each participant will leave with a custom reed diffuser they helped design themselves.
